Homework Folder / Document Wallet â€™ natural only

\$10.00

Our versatile A4 envelope can be used as a homework folder or document wallet and is made from naturally biodegradable jute, secured with a Velcro strip. We designed this product for our school-aged children to do away with brittle plastic envelopes for schoolwork that last only a few weeks before they break and need to be thrown away. We grown-ups also take it to meetings, and it is the perfect size for conference material. Order one now, or talk to us about branding this product with your logo or message for your business, event or school uniform shop.
